Archived formal model: two successes and four failures
Frozen GraphNav-V1 C epoch1 (GeomBelief manuscript identity), checkpoint SHA 00f2acc0...

Success | val_seen | episode 1
NE=12.31m, SR=1, OSR=1; policy_stop

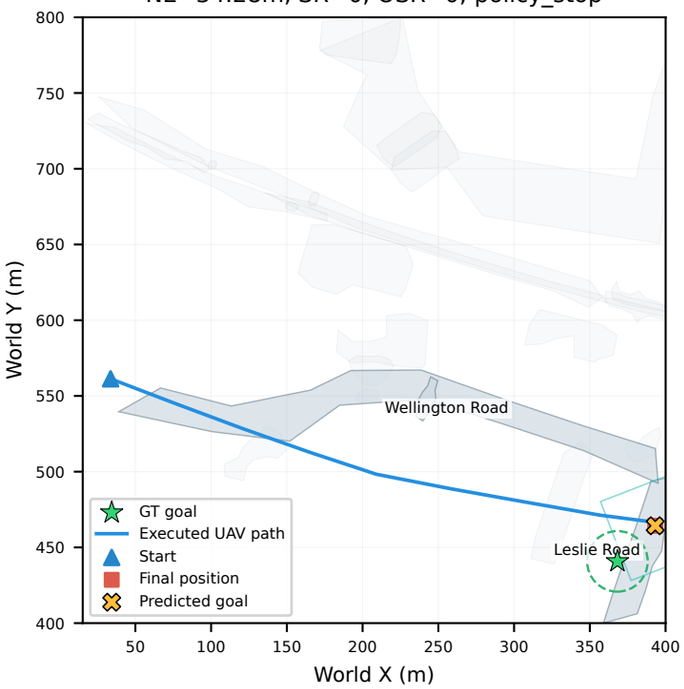

The long row of gray houses with cars parked in front of them along Leslie Road.

Success | val_unseen | episode 29
NE=11.95m, SR=1, OSR=1; policy_stop

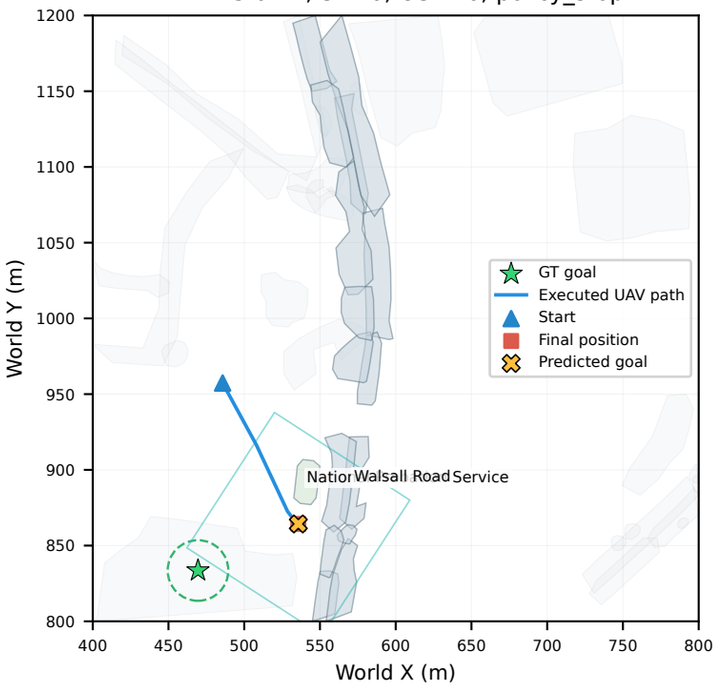

This is a large building just besides a large dirt track on Aldridge Road.

Wrong goal / false Stop | val_seen | episode 0
NE=34.28m, SR=0, OSR=0; policy_stop

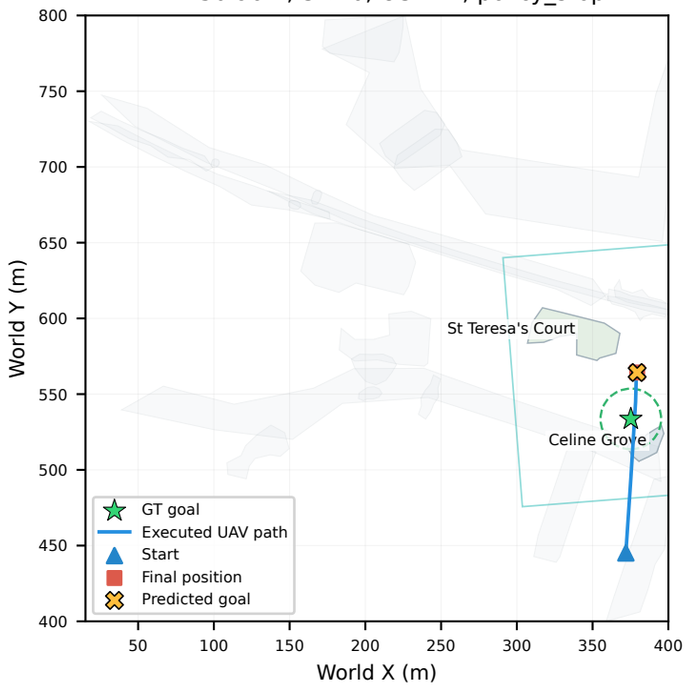

The row of grayish brown houses on Leslie Road to the left of the gray house at the intersection with Wellington Road.

Wrong goal / false Stop | val_unseen | episode 1
NE=73.02m, SR=0, OSR=0; policy_stop

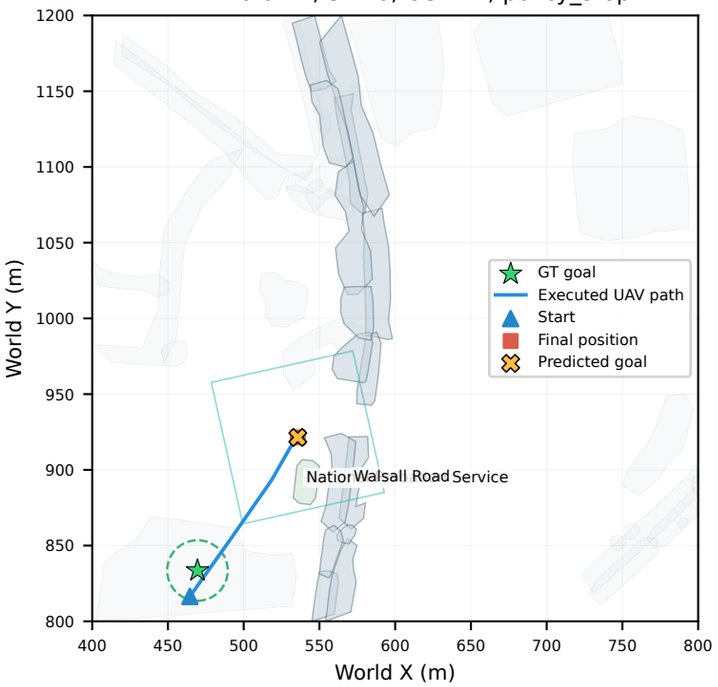

Large white and blue building, with a white roof on the corner of the map, across from the national probation service building off Walsall Road

Visited but failed | val_seen | episode 43
NE=30.96m, SR=0, OSR=1; policy_stop

A black car that is across from a group of three cars, in a extended parking lot, that starts from St Teresa's court building and ends on Celine Grove, parked in front of a white building with a light gray roof and a blue door

Visited but failed | val_unseen | episode 0
NE=110.04m, SR=0, OSR=1; policy_stop

A multi-colored white and blue building with a gray roof on the corner of the map across from the national probation service building off Walsall Road

First qualifying episode per split/outcome in fixed source order; no artificial paths. Stars: GT; yellow X: final selected goal; red square: actual final position.
Visited-but-failed = OSR=1 and SR=0; this alone does not establish a learned-Stop causal failure. Map: OpenStreetMap contributors / CityNav.
